

PURPLE KENYAN SPARKLING TEA WITH CURCUMIN

FUNCTIONAL BEVERAGE

FUNCTIONAL BEVERAGE

This trendy sparkling tea has a unique flavour profile and is packed with antioxidants as well as anti-inflammatory actives. Poor stability and bioavailability of the fat based active Curcumin is addressed in this formulation by combining it with an excellent food grade emulsifier SureNano! SureNano helps stabilize as well as increase the bioavailability of curcumin.

FLAVOR

Our quality ingredients provide the biggest, boldest and best flavors. We have a tool box full of natural ingredients to make your bars memorable. You will taste the difference in every bite.

TEXTURE

Organoleptic properties such as texture cannot be overlooked. We have the right ingredients to help ensure the right bite, crunch, crisp and chew in all of your finished products.

SHELF LIFE

We take a holistic approach to shelf life management offering oxidation management, microbial control, pH regulators and sensory (maintaining organoleptic acceptability).

NUTRITION

Want to add in some alternative proteins? How about enhancing the nutritional value with vitamins & minerals? We have a variety of on-trend ingredients to help with all types of fortification.

CALDIC CAN HELP!

We not only provide the very finest quality ingredients, our R&D and Culinary superheroes will work with you to get the exact flavor, texture, shelf life and nutritional profile that you are looking for...

We not only manufacture and distribute quality ingredients, we are an extension to your product development team!
